

A close-up portrait of a middle-aged man with short, graying hair and light-colored eyes. He is wearing a dark-colored polo shirt and has a slight, neutral expression. The background is a soft, out-of-focus teal color.

# A SPECIAL EVENT FOR SPECIALISTS

SCOTTSDALE CENTER FOR DENTISTRY

2009

NOVEMBER 6-8

## LAYING THE GROUNDWORK FOR INTERDISCIPLINARY EXCELLENCE

**IT'S A FACT:** interdisciplinary dentistry fosters higher-level clinical, diagnostic and treatment planning skills, resulting in better quality care and practice growth for all team members.

Join us to learn how to create your own team of general practitioners who will thrive in a team environment. Working with a carefully selected group of referrers is the means to two very important ends: raising the quality of patient care, and increasing practice profitability for all involved.

### ATTENDEES WILL LEARN...

- How to work with treatment planning decision trees to create a clear path to a treatment plan.
- How to sequence the ortho, perio, surgical and restorative phases of care.
- How and when occlusal therapy is important in interdisciplinary treatment.
- The latest on current topics and techniques in interdisciplinary care.

This event also marks the official launch of the Spear Study Club program. Study Club leaders are invited to attend a private lunch with Dr. Ratcliff November 8 for in-depth discussions of issues and opportunities.

TUITION  
**\$1450<sup>00</sup>**  
**20 CE Credits**

Don't miss this opportunity to learn from interdisciplinary dentistry's most knowledgeable doctors. Register Today!

### EXPERT PRESENTERS

Leading clinician and educator **Dr. Steve Ratcliff** joins the internationally recognized team of **Drs. Frank Spear, Vince Kokich and Dave Mathews** to deliver an unforgettable interdisciplinary experience. These masters are among the finest in the world in presenting practical, usable and understandable methods for breaking down clinical complexities.

#### **Frank Spear, DDS, MSD**

Dr. Spear is dually trained in periodontal prosthodontics. He is an Affiliate Professor in the Graduate Prosthodontics program at the University of Washington and maintains a private practice in Seattle, limited to esthetics and fixed prosthodontics. He has presented more than 800 days of continuing education in North America and Europe. Dr. Spear has been facilitating and teaching interdisciplinary study clubs for many years.

#### **Vincent G. Kokich, DDS, MSD**

Dr. Kokich is a Professor in the Department of Orthodontics at the University of Washington. He maintains a private orthodontics practice in Tacoma. Dr. Kokich has published 10 book chapters, 56 scientific articles, and 49 review articles. He has delivered more than 300 presentations on six continents. He is a director of the American Board of Orthodontics and was awarded the Sicher Research Award by the American Association of Orthodontists.

#### **Steve Ratcliff, DDS, MS**

Dr. Ratcliff is a highly trained restorative dentist in practice for over 30 years. He is a former instructor, clinical director and chairman of education at the Pankey Institute. He is an expert at small group learning, and has a Master's in Adult Education. He has facilitated the establishment of numerous successful study clubs in the US, Canada and the UK.

#### **David P. Mathews, DDS**

Dr. Mathews writes and lectures on coordinating interdisciplinary care for patients requiring implants, orthodontics, esthetic dentistry, regenerative periodontal therapy, and complex restoration. He has maintained a full-time practice in periodontics since 1974, and has served as Clinical Assistant in the Graduate Periodontics Department at the University of Washington.

DO YOU WANT TO WORK MORE CLOSELY WITH RESTORATIVE DENTISTS TO CREATE MORE EXCLUSIVE RELATIONSHIPS, BETTER QUALITY REFERRALS, AND MORE PROFITABLE PRACTICES.
